

## **Bugs**

**Saturday, April 13, 2019**

**9 a.m. – 3 p.m.**

**La Tech University & La Tech Arboretum**

9:00 a.m.: La Tech University; workshop leader: Dr. Natalie Clay

Topics:

- Intro to Entomology
- Major Orders of Insects
- How to ID
- How to Collect & Preserve

12 p.m.: Break; Eat; Travel

1:00 p.m.: Reconvene at Louisiana Tech Arboretum

Directions will be provided in the classroom.

If it is pouring rain or if lightening makes it dangerous to be out, we will stay on campus, sift through leaf litter, examine live specimens and preserved specimens under microscopes, etc.

3 p.m.: Conclusion w announcements (if any).

### **Special notes:**

1. Bring the usual field gear: magnifying lupe, ruler, journal, water and snacks as you need them, and protection from the sun, should it decide to make an appearance.
2. Wear footgear for puddles and mud and pants for walking in tall grass. A light rain jacket would be a good idea.
3. If you want to pay for the workshop or buy a t-shirt on site, please arrive 20 minutes early so we don't have to waste precious workshop time on business. Kim Paxton and Suzanne Laird will have t-shirts to sell.
